DETAILED ACTION

The Examiner acknowledges the response filed January 30, 2008.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 18 is rejected under 35 U.S.C. 102(e) as being anticipated by Pless et al. US

Patent Number 6,597,954 B1. (cited by Applicant).

See previous office action for details of the rejection.

Response to Arguments

Applicant's arguments, see pages 8-11, filed January 30, 2007, with respect to claims 1-8, 11-12, 14-17, 21-23 have been fully considered and are persuasive. The previous rejection of the claims has been withdrawn.

Applicant's arguments filed January 30, 2007 have been fully considered but they are not persuasive as to claim 18. It is the examiner's belief that the prior art is sufficient to reject limitation (b) of claim 18 because the limitation is directed to intended use by the use of the word "to" in line 11 of the claim. If the applicant rephrased the claim to state, "(b) identify at least one

neurological event focus location that is associated with the neurological event; and” the claim would be allowed.

Allowable Subject Matter

Claims 1-8, 11-12, 14-17, 21-23 are allowed.

Claims 19-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
